Peerless® Handcuff Company

Setting the Standard Since 1914

Peerless® Handcuff Company was established in 1914 by James Milton Gill in Springfield, Massachusetts. Nearly 100 years later the classic swing through design of the original Peerless® handcuff continues to be an industry standard. Now in its fourth generation, Peerless® Handcuff Company remains a family business committed to producing the finest restraints available.

Peerless® Handcuff Company offers a full range of metallic restraint products and accessories. These products are used by law enforcement, correction and military agencies throughout the US and abroad.

Please call 800-732-3705 or email at info@peerless.net with any questions concerning our products. Information is available through our website at www.peerless.net.

Introducing New “C” Series Models

New for the summer of 2013 Peerless® is pleased to introduce our improved “C” Series restraints. The C Series models incorporate a redesigned internal lock mechanism. The new lock design increases tamper resistance, gives a smoother ratcheting action and offers greater durability.

Where applicable all C Series models have been designed to meet or exceed the tough National Law Enforcement Technology Center (NLETC) - National Institute of Justice (NIJ) - Metallic Handcuff Standard - 0307.01. The Model 700C - Chain Link Handcuff and Model 801C - Hinged Handcuff have been inspected and certified by the NLETC as meeting NIJ Handcuff Standard - 0307.01.

The new C Series design will be integrated into all 700 and 800 series restraints. All C Series restraints will operate in the same way and use the same key as previous Peerless® models. All C Series restraints will be covered by our lifetime warranty for manufacture defects.

Also new, Peerless® Leg Irons have been redesigned to be stronger and more tamper resistant. Features include all steel construction, spun rivets and push pin double lock capability. The 15” chain effectively limits range of motion. All Peerless® Leg Irons are made to meet or exceed the National Institute of Justice standards for workmanship, mechanical strength, tamper resistance and corrosion resistance.

All Peerless® products are backed by our lifetime guarantee for manufacture defects, assuring you of the highest quality material and workmanship. When you want restraint devices that you can depend on, you want Peerless®.

Chain Link Handcuff

The classic design is new and improved. Our most popular design now features an improved internal lock mechanism for increased tamper resistance, smoother ratcheting action and greater durability. Incorporating spun rivet construction, push pin double lock capability and nickel finish. The Model 700C is National Institute of Justice 0307.01 certified and comes with a lifetime warranty for manufacture defects. Available in the following finishes: nickel, black oxide, red, blue, orange, yellow, and pink.

- Double Locking
- Two Keys Supplied
- Made in USA

Chain Link Handcuff – Imported

A money saver. The P010 is intended to fit increasingly tight budgets without compromising quality and safety. Designed and tested to meet the tough demands often placed on this critical piece of equipment the P010 is manufactured in Korea at an ISO/TS 16949 and ISO 14001 certified facility using high quality materials and component parts. National Institute of Justice 0307.01 certified. The P010 is standard sized, double locking, with two keys supplied. It comes with a lifetime warranty for manufacture defects.

- Double Locking
- Two Keys Supplied
- Made in Korea

Oversize Chain Link Handcuff

The Model 702C is designed specifically for larger individuals or special security applications. This oversized cuff has a 20% larger inside perimeter than the Model 700C. The Model 702C features an improved internal lock mechanism for increased tamper resistance, smoother ratcheting action and greater durability. It meets or exceeds the National Institute of Justice standards for workmanship, mechanical strength, tamper resistance and corrosion resistance. It comes with a lifetime warranty for manufacture defects.

- Double Locking
- Two Keys Supplied
- Made in USA

Leg Iron

Model 703C & 753C - Leg Iron

The Peerless® standard size Leg Irons have been redesigned to be stronger and more tamper resistant. Features include all steel construction, spun rivets, 21 locking positions and push pin double lock capability. The 15" chain effectively limits range of motion. The Model 703 and Model 753 are made to meet or exceed the National Institute of Justice standards for workmanship, mechanical strength, tamper resistance and corrosion resistance. Lifetime warranty for manufacture defects and two keys supplied. Available in the following finishes: nickel, red, blue, orange, yellow, and pink. Made in USA.

- Double Locking
- Two Keys Supplied
- Made in USA

Model 705C & 755C - Oversize Leg Iron

The Peerless® oversize Leg Iron models have been redesigned to be stronger and more tamper resistant. The Model 705C and 755C are designed specifically for larger individuals. It has a 3.2 inch opening and a maximum inside perimeter approximately 20% larger than our standard size Leg Iron. The Model 705C and 755C feature all steel construction, spun rivets, 25 locking positions and push pin double lock capability. The 15" chain effectively limits range of motion. Lifetime warranty for manufacture defects and two keys supplied. Available in the following finishes: nickel, red, blue, orange, yellow, and pink. Made in USA.

High Security Restraints

Peerless® high security products are designed for high risk prisoner restraint and transport situations. These products do not operate with a standard handcuff key. The restraints incorporate standard product with a MEDECO® or ASSA® Desmo high security lock system and aluminum housing. Both MEDECO® and ASSA® Desmo use restricted key control systems to prevent unauthorized key duplication. Multiple sets can be ordered with the same key code or different key codes.

Now available with the new Dead Bolt Security option. Dead Bolt Security compliments the standard lock with an additional locking position for added security. When engaged, the Dead Bolt feature helps to secure the double lock against brute force and finessed picking and shimming attacks. The Dead Bolt option is only available with new or existing MEDECO® style key plans.

High security locks are available as chain link handcuff, leg iron and waist chain. Other features include improved internal lock mechanism, spun rivet construction and double lock capability. All products come with two keys, a double lock activator, and a lifetime warranty for manufacture defects. Made in USA.

MEDECO® is a registered trademark of Medico High Security Locks. ASSA® Desmo is a registered trademark of Abloy Security, Inc.

Special Situation Restraints & Custom Chain Work

Peerless® offers restraints for special situations and custom chain work to meet specific requirements. These products are variations of standard models or use component parts from standard models in different configurations to create the right tool for the job. Custom restraints may be available with the high security lock option. Call 800-732-3705 to discuss how your special restraint needs can be met.

Model 7002C Waist Chain - Separated Cuffs / 54" Chain

The Model 7002C Waist Chain is designed for special security situations. The Model 7002C has one NIJ approved Model 700C handcuff positioned at each hip allowing for either parallel arm or cross arm handcuffing. The special 54 inch heat treated steel chain includes padlock rings for waist size adjustments. Now with an improved internal lock mechanism for increased tamper resistance, smoother ratcheting action and greater durability. Lifetime warranty for manufacture defects.

Model 7002C-XL Waist Chain - Separated Cuffs / 72" Chain

Same design as the Model 7002C with added chain (72 inches) for larger waist size adjustments.

Model 7002C-OS Waist Chain - Separated XL Cuffs / 54" Chain

Same design as the Model 7002C with oversize handcuffs positioned at each hip.

Model 7003C Waist Chain - Linked Cuffs / 54" Chain

The Model 7003C Waist Chain is designed for special security situations. The Model 7003C has one NIJ approved Model 700C handcuff positioned at the navel allowing for limited use of the hands. The special 54 inch heat treated steel chain includes padlock rings for waist size adjustments. Now with an improved internal lock mechanism for increased tamper resistance, smoother ratcheting action and greater durability Lifetime warranty for manufacture defects.

Security Chain - PSC60 & PSC78

The Peerless Security Chain is designed for corrections, transport and courtroom situations. When used in conjunction with a set of handcuffs this simple chain quickly converts into a secure waist restraint. The specially designed end link is compatible with all commonly used handcuffs - Chain Link or Hinged. The end link can also be slotted into any link on the chain and will fit "Black" and "Blue" style security boxes. Available in 60 inch and 78 inch length. Made in USA.

Keys

Standard Handcuff Key

Standard size handcuff keys. Small and light weight. Compatible with most standard type handcuff locking mechanisms.

Oversize Handcuff Key

A high quality extra large key designed to make double locking and unlocking restraints faster and easier. The extra long aluminum barrel is oversized and knurled for easy handling. The flag tip and double lock pin are made from heat treated alloy steel for high strength and durability. Compatible with all standard type handcuff locking mechanism. Offered in key ring and pocket clip styles. Available in silver or black finish.
